PROFILE

I'm a 24 year old website designer based in Melbourne, Australia. I've been designing websites professionally as a freelancer since 2004. I use (X)HTML and CSS to create clean, standards-compliant sites with a high focus on usability for my clients.

DESIGN EXPERIENCE

Freelance Website Design 2004 onwards

I specialise in front-end and interface design, as well as back-end/database design, and project manage all my contracts, subcontracting where necessary to get the best results for my client. Recent clients include:

- No Clean Feed [2008] (www.nocleanfeed.com)
- Australian Zionist Youth Council [2008] (www.azyc.com.au)
- ESLtutor [2008] (www.esltutor.com.au)
- North Eastern Jewish Centre [2008] (www.nejc.com.au)
- Adelaide Hebrew Congregation [2007] (www.adelaidehebrew.com)
- Colour Square Pty Ltd [2007] (www.coloursquare.com.au)

Habonim Dror Australia Inc. 2005-2007

As Head of Design, I was responsible for project managing a team of graphic and web designers in the creation of promotional material for various programs run by Habonim Dror Australia Inc. throughout 2005, 2006 and 2007. During 2005, I designed and supervised the development of a complex online registration and payment system for the organisation's members that included a custom CMS tailored for expandability.

Oblo Jewellery 2004-2005

I was hired as a Junior Designer, responsible for maintaining the Oblo Jewellery website, as well as page layout design for product catalogues provided to retailers several times each year. Since leaving Oblo in 2005 I have consulted on the design and implementation of their promotional material and marketing efforts.

EDUCATION

Mount Scopus College

1990 - 2002, graduating with a Victorian Certificate of Education in 2002

Monash University

2004 - 2008, Bachelor of Design (Industrial Design)

SOFTWARE

OS/Basic Software

I use a Mac running OS X 10.5, as well as the iWork and iLife suites. I am proficient in MS Windows Vista and XP and the MS Office suite.

Creative

Adobe CS3 Design Premium [Photoshop, Illustrator, InDesign, Dreamweaver]

Development

I use Panic's Coda or Adobe Dreamweaver to code (X)HTML and CSS by hand, along with some Javascript for client-side interaction. I prefer MySQL for database back-ends, and know some PHP and ASP for server-side interaction. I test all designs in all modern browsers.

My portfolio is available online at <http://andrew.harrison.org>.
